Proceeds from this event help to benefit The Efrain Anthony Marrero Foundation's commitment in fighting illegal steroid and performance enhancing drug use among our youth; and to educate parents, teachers, coaches and the public, of the dangers of steroid use.

This year we are the main guest speakers at The Pennsylvania Annual Athletic Directors Conference in Hershey, Pennsylvania. The conference will be presented at the Hershey Convention Center and over 450 Athletic Directors throughout the State of Pennsylvania will attend the conference.

We cannot continue our mission without your valuable support. We appreciate your commitment to our cause and we look forward to seeing you again this year at this worthy fundraiser. Our youth deserve to know the truth about the dangers of steroid abuse.

Sincerely,

*Felix A. Marrero*

Vice President, Eastern Region
