*Efrain*

Founded in 2005, The Efrain Anthony Marrero Foundation is dedicated to ending the abuse of steroids and performance enhancing drugs by our youth in America. Formed in memory of Efrain who took his own life on September 26, 2004, three weeks after he stopped using steroids.

The foundation is dedicated to:

- Educating students, parents, teachers, coaches, athletic directors, and trainers about the devastating consequences of steroid abuse
- Fostering an environment where our youth compete, and are evaluated using their own natural abilities
- Providing a nationwide network of resources for parents and children dealing with steroid abuse
- Staying culturally relevant through education and awareness

What sets the Foundation's outstanding programs apart is its commitment to make information easily available to everyone. It currently has developed its website, promotional material, and programs in both Spanish and English to allow audiences to fully participate in the most comfortable environment.

Our Core Values:

- Integrity & Honor
- Service Before Self
- Excellence in our Pursuits

The Foundation was recognized by the 110th Congress in April 2008 for its outstanding leadership and service in the efforts to educate people about steroid use and its efforts to remove all performance enhancing drugs at all levels of sports.

Please visit our website at [www.nosteroids.org](http://www.nosteroids.org). We appreciate your support!
